

2015 Pack Expo Las Vegas

How is PackML / TR88 implemented at Schneider Electric?

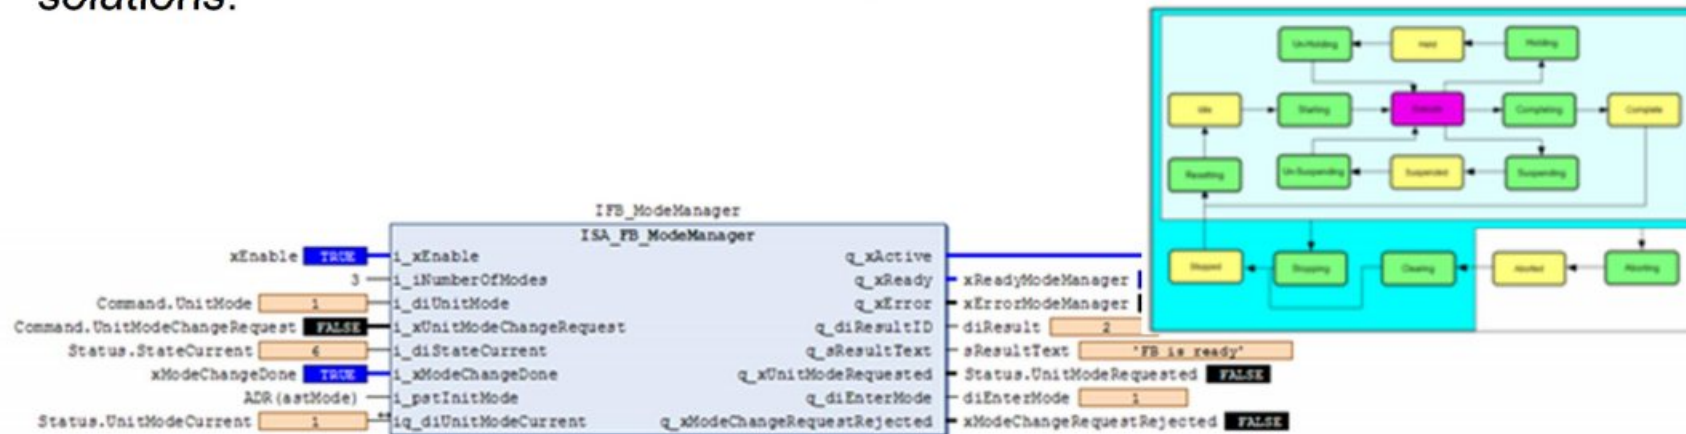

Mark Duncan

PackML is everywhere @ Schneider Electric

Schneider Electric's PackML Library

Our library provides function blocks, structures, and visualization frames for data and PackTag management and operation mode management to aid OEM's and end-users in creating applications that conform to PackML as defined by ISA-TR88.00.02. It's available for all major PLC and PAC platforms at SE's machine solutions.

Wonderware SCADA/MES Platform & PackML
